## APN Candidate Show Case

### The Right Staff and the Right Fit!

This economic market is not changing anytime soon.

"One person's misfortune is another's opportunity."

To keep your cost down, do it with the **Right Staff** and the **Right Fit**. Always keep your staff trained and constantly upgrade staff to continue to raise the bar.

APN is a Staffing and Employment Solutions company. We do our best to keep informed and aware of client needs of the employment market place.

**Here are a few areas we have successfully placed qualified professionals with our clients:**

#### Sales Representatives in all areas

Having the right Sales force is a must. Is now the time for your company to review your Sales Team and make the decisions to add or replace? Our recruiters are experienced in all departments to assist in finding Sales personnel; whether you need a frontline, internet or phone salesperson. We actively identify the best sales representative candidates that meet position requirements in Parts, Service and Marketing, locally, regional and nationally.

There are individuals in this market place that will make a difference in your business. Let APN identify the talent you need to drive your revenue upwards.

#### Department Managers for all departments, Sales, Parts, Service, Accounting, Manufacturing and Marketing

These are unique times; you need the sharpest and most dedicated professionals in your business. Given our experience, let us identify those individuals for you.

#### Engineers with experience in product development and production

We have targeted this as a growing area for the next twelve months.

Manufacturing is going to return and these folks are once again going to be at a premium. Manage your current staffing requirements but keep an eye on the future. These highly skilled individuals were the key to past success and will be the key to future success in manufacturing.

### Regional Mangers for all business in the Transportation industry

Many companies cost cutting efforts included centralizing Operations over the past few years. Not all Managers are able to work at a regional or national level. These are critical individuals for any business because of the size of the budget they influence. Contract Staffing may be the best solution due to the uncertain client business activity throughout the rest of 2009.

If you need a team of professionals for a special project; IT solutions, product develop or temporary employee, we can provide you with those resources. Most businesses are reluctant to make long term staffing decisions in this market place, that is why we are a full-service employment needs firm with administrative and commission personnel readily available.

#### Parts Counter Personnel

We recruit parts personnel for all lines; retail and wholesale. Several candidates also have independent and Big Box Store experience.

#### Warranty Clerks

Our candidates possess various levels of experience as well as a working knowledge of most manufacturer's policies and procedures. We also offer highly skilled candidates on a contract basis to train existing personnel and to catch up backlogged work.

#### Office Clerks

Title Clerks, Billers, Accounting Clerks, Bookkeepers and Payroll Clerks, we can provide both permanent and contract placements.

#### Finance Managers

Secondary or Primary, Producers and Directors. Do you need to build up your department? We are ready to provide you with the right candidate!

#### Service Writers

We identified and represent experienced writers of all manufacturers' car lines as well as diversified individuals for independent repair centers. Our Service Advisors and Consultants are the top of their fields and pre-screened by APN staff.

#### Technicians

We recruit highly trained Service Technicians on a nationwide basis. Many of our candidates have been successfully placed in high-line, high volume positions across the country.
